

Covering After Dinner Mints

Steps:

1. Make a drip tray with a wire rack and a cake tin.
2. You need Liquid Magic - Pearly Hot Pink, After Dinner Mints and a piping bag with Universal Magic in it (we show you how to make this custom colour in another mini tutorial)
3. Using a fork, put the mint into the liquid magic.
4. Ensure that the mint gets completely covered.
5. Remove the mint with the fork and tap the fork on the side to remove any excess gel.
6. Place the mint on the drip tray and continue with other mints.
7. This is how they should look.
