

Steps:

1. Place tiara pattern inside a plastic sleeve.
2. With your choice of Deco Magic Original gel pipe over the pattern. Remove pattern from plastic sleeve once piped and repeat for the quantity and sizes of tiaras. Leave to dry.
3. Using a knife, gently remove from tiara from the plastic.
4. Wrap the tiara around a tin of the size you require for your tiara. Leave to dry completely and gain shape. This is for the smaller (top tier) cakes.
5. For the larger cakes or lower tiers, once removed from the plastic, dampen the back of the tiara with water using a cloth. Then carefully wrap the tiara around the cake edge.
6. This is what this tier should look like.
7. For the smaller tier, remove the tin very carefully, your tiara will now be able to stand freely.
8. Place your tiara on the top tier of your cake.
