

Mixing Universal Magic with Liquid Food Colour

Steps:

1. Put a small amount of Universal Magic into a mixing bowl with a spoon.
2. Get your liquid food colouring (whichever brand you like)
3. Pour a few drops into your bowl over the gel.
4. Start to mix with a spoon.
5. If you require a darker (custom) colour, add more liquid food colouring.
6. Continue to stir through.
7. Again, add more liquid food colouring to get the desired colour.
8. Mix to your final colour.
